HOPE TECH 4/14 BRAKES

Hope Tech's 4/14 brakes are a significant upgrade from the previous generation. The new brakes feature a redesigned master cylinder and a new piston design that provides a more consistent feel and improved modulation. The 4/14 brakes are also equipped with a new anti-lock braking system (ABS) that helps prevent wheel lock-up during hard braking. The new brakes are available in two configurations: a standard version and a more expensive version with a larger master cylinder and a more advanced ABS. The standard version is priced at \$1,200, while the more advanced version is priced at \$1,500. The new brakes are a significant improvement over the previous generation and are a must-have for anyone looking for a more consistent and reliable braking system.

SMITH BOBCAT GLASSES

Smith's Bobcat glasses are a new addition to the company's line of performance eyewear. The glasses feature a wrap-around design that provides excellent protection from wind, dust, and debris. The lenses are made of polycarbonate and are scratch-resistant and UV-protected. The glasses are also equipped with a new ventilation system that helps prevent fogging during intense activity. The Bobcat glasses are available in a variety of colors and are priced at \$150. The new glasses are a significant improvement over the previous generation and are a must-have for anyone looking for a more comfortable and reliable eyewear option.
